in a collection of chapters from high school teachers and university researchers raise your voices offers english language arts teachers one stop shopping to learn how to

foster dialogic classrooms and how to prompt, sustain, connect, and assess classroom discussions especially discussions about issues that adolescents find consequential. The chapters explore both the basics for facilitating discussion to support literacy learning and the principles for assessing the progress and effect of discussion and for including all students in lively dialogue. Taken together, the entries in this book envision the English language arts classroom as a supportive environment for authentic inquiry and for the genuine democratic processes involved in grappling together with tough, perennial, and contemporary issues.

With this practical book, you'll learn effective ways to engage students in reading and writing by teaching them narrative nonfiction by engaging adolescents in narrative literary or creative nonfiction. They can cultivate a greater understanding of themselves, the world around them, and what it means to feel empathy for others. This book will guide you to first structure a reading unit around a narrative nonfiction text and then develop lessons and activities for students to craft their own personal essays. Topics include engaging your students in the reading of a nonfiction narrative with collaborative chapter notes, empathy check ins, and a mini research paper to deepen students' understanding. Helping your students identify meaningful life events, recount their experiences creatively, and construct effective opening and closing lines for their personal essays, encouraging your students to use dialogue outside research and a clear plot structure to make their narrative nonfiction more compelling and polished. The strategies in this book are supplemented by examples of student work and snapshots from the author's own classroom. The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear, the appendices offer additional tips for using narrative nonfiction in English class, text and online resources for teaching narrative nonfiction, and a correlation chart between the activities in this book and the Common Core Standards.

Students need updated writing genres and a real reason to write. Evolutions in technology and connectivity have brought about significant changes in the ways writing is produced and shared. Yet despite monumental shifts in the practice of writing, how we teach writing has remained largely static. What we need is a new set of genres for writing instruction, genres that will speak to students who are already immersed in rich and multifaceted literacy practices through social media, gaming, and new technologies. Jessica S. Early's *Next Generation Genres* provides an alternative framework for a secondary writing curriculum that places a central emphasis on helping students gain the experience they need to write with confidence in academic and civic life. If your students' eyes glaze over when they face a standard essay assignment, perhaps it's time to let them try writing an infographic or a podcast.
