africa has experienced dozens of conflicts over a variety of issues during the past two decades responding to these conflicts requires concerted action to manage the crises the violence the political discord and the humanitarian consequences of prolonged fighting it is also necessary to address the long term social and economic impacts of conflict to rebuild communities societies and states that have been torn apart to accomplish this requires the involvement of institutions and groups rarely considered in formal official african conflict management activities schools universities religious institutions media commercial enterprises legal institutions civil society groups youth women and migrants these groups and organizations have an important role to play in building a sense of identity fairness shared norms and cohesion between state and society all critical components of the fabric of peace and security in africa this volume brings together leading experts from africa europe and north america to examine these critical social institutions and groups and consider how they can either improve or impede peaceful conflict resolution the overarching questions that are explored by the authors are what constitutes social cohesion and resilience in the face of conflict what are the threats to cohesion and resilience and how can the positive elements be fostered and by whom the second of two volumes on african conflict management capacity by the editors the fabric of peace in africa looking beyond the state opens new doors of understanding for students scholars and practitioners focused on strengthening peace in africa the first volume minding the gap african conflict management in a time of change focused on the role of mediation and peacekeeping in managing violence and political crises

burning ambition explores how young people learn to understand and influence the workings of power and justice in their society since 2008 hundreds of secondary schools across kenya have been targeted with fire by their students through an in depth study of kenyan secondary students use of arson elizabeth cooper asks why with insightful ethnographic analysis she shows that these young students deploy arson as moral punishment for perceived injustices and arson proves an effective tactic in their politics from below drawing from years of research and a rich array of sources cooper accounts for how school fires stoke a national conversation about the limited means for ordinary kenyans and especially youth to peacefully influence the governance of their own lives further cooper argues that kenyan students actions challenge the existing complacency with the globalized agenda of education for all demonstrating that submissive despondency is not the only possible response to the failed promises of education to transform material and social inequalities
